UCSF TODAY & TOMORROW

SATURDAY THROUGH FRIDAY MAY 1-14, 1976 UC-SAN FRANCISCO

Honors & Appointments

COMROE, JULIUS H., Morris Herzstein Prof. Biology, CVRI: Received the Jessie Stevenson Kovalenko Medal from the National Academy of Sciences at its Annual Meeting in Washington D.C. on April 26, in recognition of his research on the physiology of respiration and the lungs and on the role of basic research in major advances in medicine and surgery. On April 7 he received the California Medal at the Annual Meeting of the California Lung Association in Palo Alto for his contribution to the study of the cause, prevention and treatment of lung diseases.

MONAHAN, MIMI: Noted for her success, as Chairperson of Local Arrangements for the Annual Meeting of the American Association of Neurosurgical Nurses, and for her election as Chairperson of the Nominating Committee of the AANN.

RESNIK, BARBARA MC-KINLEY: Designated as a distinguished alumnus for 1976 by Cornell University - New York Hospital School of Nursing, Board of Directors Alumni Association. Graduated from Cornell University in 1950. Graduate from UC-San Francisco, School of Nursing and presently Prof. in Ambulatory and Community Medicine. Award is bestowed in recognition of her contribution to Nursing and the Nursing Practice.

ARCE, JORGE E., First recipient of the George and Rosalie Hearst Fellowship and Lectureship in 1966: Lectured on glaucoma, April 2 in San Francisco.

AVANZINO, RICHARD, Associate Executive Director of Orange County Health Planning Council: Appointed New Executive Vice President, the top administrative position of the The San Francisco Society for the Prevention of Cruelty to Animals. An attorney and pharmacist, he received his law degree from UC-Davis and his Doctor of Pharmacy from UC-San Francisco.

MANIO, ESTRELLA: Promoted to Head Nurse II - 6 N/S.

TIDDENS, BARBARA: Promoted to Head Nurse II - 12th floor.

WINGFIELD, MARY, Head Nurse II - 10 East: Became Head Nurse II - 5B - on April 25, replacing KAPPES, LINDA who resigned.

ROBINSON, SAUL J., Clinical Prof. Pediatrics: Nominated to Vice President (President-Elect) of the American Academy of Pediatrics.

S. RY ANDERSEN, Eye Pathology Institute, Copenhagen, Denmark. Visiting the week of May 3 thru May 6.

STEVENS, WILLIAM, BA Economics: Appointed Parking Manager created by transfer of BROWN, RUBY to the Housing Officer position last January.

News Briefs

Nobel Laureate Dr. Renato Dulbecco, the first Ethel and Jane Sokolow Memorial Visiting Scientist, was in residence at UCSF recently to lecture and hold seminars. He was hosted by the Cancer Research Institute and the Departments of Biochemistry and Microbiology. The Ethel and Jane Sokolow Memorial Cancer Endowment Fund was established in 1973 from memorial gifts given after their death in 1970. It constitutes a living memorial through visiting lectureships. Sole consideration in selection of the visiting scientist is "excellence in the broad field of cancer research and recognition by the scientific community of the candidate's accomplishments." Dr. Dulbecco, who with two other scientists, won the 1975 Nobel Prize in Medicine or Physiology, was cited for his work in animal virology and genetic coding. He demonstrated that the DNA of tumor viruses is incorporated in cells that become tumor cells. His early work, which made animal virology a science, was fundamental to the advance of virology research. A native of Cantanazaro, Italy, Dr. Dulbecco is currently Assistant Director for Research, Imperial Cancer Research Fund, London.

A new screening tool for diagnosing lung disease is being tested by UC-San Francisco researchers. It eliminates the need for arduous breathing tactics — an impossibility for some patients who have various lung diseases. It may also detect at an early stage such difficult-to-diagnose diseases as emphysema and pulmonary embolism. The machine uses infra-red light to analyze non-toxic carbon monoxide quickly, while a patient takes a single breath. It measures the size of the blood vessel network and can diagnose early lung disease in which these blood vessels are obstructed or destroyed, as in emphysema and pulmonary embolism. It can also distinguish them from other airway diseases such as bronchitis and asthma, say Christopher J. Newth, M.D. and David J. Cotton, M.D., post-doctoral fellows working with Jay A. Nadel, M..D. in the Cardiovascular Research Institute.

U.C.-San Francisco will have an exhibit at the "San Francisco Twin Bicentennial Science and Industry Exhibition" being held May 26 through June 6 at Fort Mason, Pier 2. A committee, chaired by Betty Sooy, has arranged for a display of photographs selected by Drs. John B. de C.M. Saunders and Chauncey Leake. The photographs feature events during the early California history especially the period of the Barbary Coast and the 1906 earthquake. UC-San Francisco contributions to world health will be coordinated with historical material. Volunteer help is needed at the Bicentennial exhibit. Students, faculty, and other employees (as well as spouses) are encouraged to help distribute literature and answer questions about U.C.-San Francisco. Hours at the Pier 2 exhibit are from 9:30 a.m. till 6 p.m. weekdays; and from 9:30 a.m. till 8 p.m. Friday, Saturday, and Sunday. Four-hour shifts will be assigned to two people throughout the duration of the exhibit. Please join with committee members Sue Clark, Mike Giovanielo, Richard Hansen, Terry O'Connor, Genevieve Watts, and Lois Wiggins in representing the campus. For additional information telephone 666-4392.

Intensive care for neurological patients is now available on the eighth floor of Moffitt Hospital. The new special care unit consists of four beds - three beds in one large room and one bed in a separate isolation room. According to Project Coordinator Joyce Terrien, the unit will make it possible for both neurosurgery and neurology patients to remain where there are nurses who are skilled in the specific observations and techniques required by patients with neurological conditions. Mimi Monahan is the Head Nurse for the new Neurosurgery-Neurology and Edwin B. Boldrey, Prof. Emeritus Neurosurgery is the Medical Director of this special care unit. On the unit vital signs are relayed from individual bed-side monitors to the station, including an EKG read-out, and it is anticipated that an intra-cranial monitor will be available in the near future. The isolation room is equipped for complete isolation techniques, and has a separate utility area. Complete privacy is possible through use of an automatically operated curtain over the viewing window. From either room, the curtain can be drawn by pushing a button located near the door knob.

The nation's first comprehensive research program attacking all aspects of liver disease, a major health problem and leading cause of death, is now underway at the University of California, San Francisco. Funded by a $2.5 million grant from the National Institutes of Arthritis, Metabolic and Digestive Diseases, the five year Interdisciplinary Liver Research Program is under the direction of Rudi Schmid, M.D., Ph.D., Professor of Medicine, and Chief, UCSF Gastroenterology Unit. Associate Director is Michael M. Thaler, M.D., UCSF Associate Professor of Pediatrics. The new program combines the resources and facilities of the UCSF Schools of Medicine and Pharmacy, the Moffitt-University Hospital on the UCSF campus, and the UCSF-affiliated San Francisco General Hospital and Veterans Administration Hospital of San Francisco. It consolidates and expands liver research projects being conducted by more than 25 UCSF investigators and associates in various departments including:

#045 University of California

First Class U.S. Postage

1 Saturday

Beer Making: Gary Barton. One session. 317 Judah, S.F. 2-6 p.m. For further information call 664-6463.*

3 Monday

Otolaryngology Grand Rounds. 214 S. 8-10 a.m.

Hospitals and Clinics: *New Employee Orientation.* Refreshments, exhibits, slide presentations, free guide to entering the UCSF System. A-44. 9-10:30 a.m. For more information call 666-3247.

Practical Philosophy Lecture: *Esthetics and the Concept of "Humanism" - the Technologies in Relation to the Arts and to the Humanities.* Chauncey D. Leake. 301 HSW. Noon.*

CVRI Seminar. 1364 S. 4-5:30 p.m.

4 Tuesday

Department of Psychiatry Grand Rounds. Limited to faculty, staff and students of UCSF. LPNI Aud. 11 a.m.

Research Seminars by Women Faculty and Research Scholars: *Recent Developments in Ethnopsychiatry.* Margaret M. Clark. 118 S. Noon-1:30 p.m.

Biochem/Biophysics Seminar: *The Evolutionary Role of Gene Rearrangement.* Allan Wilson, Dept. Biochemistry, UC-Berkeley. 302 HSW. 4 p.m.

The Twenty-First Annual Samuel Higby Camp Lectureship: Presented by The Department of Orthopaedic Surgery. Professor Robert Merle d'Aubigne, Visiting Professor, The Eleventh Annual Scientific Program of the Leroy C. Abbott Orthopaedic Society, Joseph A. Kopta, Abbott Lecturer. May 4-7. UC San Francisco, School of Medicine. The entire Program is open to the medical community. For information call Ms. Donna Buessing, 666-1904.

5 Wednesday

Dermatology Conference. Letterman. 8:10 a.m.

Medical Anthropology Seminar: *Alternate Healing Systems in Latin America and the Role of Trance States in Healing.* Dr. Koss. 310 C. 10-noon.

Medical Grand Rounds. Cole Hall. 10:30-noon.

Anatomy Seminars: *Ultrastructural Studies of the Alveolar Type II Cell and its Secretions.* Mary Williams, Asst. Prof. in Residence, Anatomy & CVRI. 1309 HSE. Noon.

Neuroendocrinology Seminar: *Catecholaminergic control of LH and prolactin secretion.* R.I. Weiner, Assistant Prof. Obstetrics and Gynecology. 758 S. 2 p.m.

Basic Science Lecture Series: *Structure and Function of Ionic Junctions in Nerve and Muscle Membranes.* Bertil Hille, Dept. Physiology, U. of Washington. 301 HSW. 3 p.m.

Neurobiology Seminar Series: *The Visual System as a Fourier Analyzer.* Russell DeValois, Prof. Psychology, UC-Berkeley. 758 S. 4 p.m.

6 Thursday

Occupational Medicine Rounds: *Hypertension and Occupational Disease.* Piero O. Mustacchi. 455 A. 8:30-10 a.m.

Hospitals and Clinics: *New Employee Follow-up Program.* For all Hospital and Clinics new employees hired in March. Refreshments, film, tour of Hospitals and Clinics. A-44. 10-noon. For information, call 666-3247.

7 Friday

Children's Service Clinical Conference. LPNI Aud. 9:30-11 a.m.

Department of Pharmaceutical Chemistry Seminar: *Mass Spectrometry of Nucleic Acid.* James A. McCloskey, Prof. Dept. Biopharmaceutical Sciences, University of Utah. 303 HSW. 11 a.m.

Reproductive Biology Seminar: *Hypothalmic Dopamine and the Regulation of Prolactin Secretion.* Richard I. Weiner. 214 S. Noon.

Law and Medicine

Law and Medicine: *Current Issues in the Law for Physicians and Allied Health Professionals.* 300 HSW. Fri. May 28-Sat. May 29.

This program will survey current legal problems affecting medical practice. It will explore basic legal concepts, fundamental economic forces affecting practitioners, and evidentiary factors in litigation. It will help the practitioner discover and eliminate legal hazards within his practice.
Presented by the Division of Ambulatory and Community Medicine and Extended Programs in Medical Education, UCSF, in cooperation with USF School of Law.

Program Chairman
Dan. J. Tennenhouse, M.D., J.D., F.C.L.M., Medical Legal Consultant; Lecturer on Legal Medicine & Nursing Law, UCSF School of Medicine & School of Nursing, Lecturer in Law, UC Boalt Hall, Berkeley.

Faculty
Robert L. Anderson, J.D. Specialist in medical malpractice defense litigation; Robert L. Bianco, J.D., Assistant Professor of Law, University of San Francisco School of Law; Phillip E. Brown, J.D. Specialist in medical malpractice plaintiff litigation; James T. Caleshu, L.L.B. Specialist in commercial and contract litigation; James M. Glick, M.D. Assistant Clinical Prof. Orthopaedic Surgery, UCSF; Miriam Gould, M.D. Assistant Clinical Prof. Psych. UCSF; Neil Kellman, M.D. Specialist in adolescent medicine; Thomas F. Kostic, J.D., Specialist in taxation and estate planning; Charles G. Mendelson, M.D., Assistant Clinical Prof. Dermatology, UCSF; Joseph W. Rogers, Jr. J.D.; David Rubsamen, M.D., L.L.B., F.C.L.M. Specialist in legal medicine; Ronald C. Winchell, J.D.

Monte Carlo

Monte Carlo comes to Millberry on Saturday night, May 22nd. Committee on Arts and Lectures (CAL) will convert the Millberry Student Union into a Las Vegas-style gambling casino — roulette, dice and blackjack tables, dealers, live music — all of the trimmings for a fun night of gambling for the campus and the community-at-large. Winners at the tables will receive prizes rather than money. Anyone interested in participating and getting involved in Monte Carlo Night to help secure prizes or to work on other committees, call the Program Department at 666-2019 and come to the CAL meetings every Tuesday at 5 p.m. in the Board of Governors Room in Millberry Union.

UCSF/ MAY 1-14

8 Saturday

Vegetable Gardening: Gary Barton. One session. 317 Judah, S.F. Noon-4 p.m. For further information call 664-6463.*

Public Programs and Continuing Education
THE PSYCHOLOGY OF CONSCIOUSNESS May 8-9, 1976
UCSF Schools of Dentistry, Medicine, Nursing and Pharmacy in cooperation with The Institute for the Study of Human Knowledge.

Faculty:
William Dement, M.D., Professor of Psychiatry and Psychology at Stanford University where he heads the Sleep Disorders Clinic and Laboratory.
David Galin, M.D. is research neurophysiologist and Assistant Professor in Residence, Dept. of Psychiatry, Langley Porter Neuropsychiatric Institute.
Ernest R. Hilgard, Ph.D., Professor of Psychology at Stanford University.
Robert E. Ornstein, Ph.D., Associate Professor of Medical Psychology at Langley Porter.
Idries Shah, leading contemporary exponent of Sufism.
Roger W. Sperry, Ph.D., Hixson Professor of Psychobiology at the California Institute of Technology.
Call 666-2894 for information.

10 Monday

Otolaryngology Grand Rounds. 214 S. 8-10 a.m.

Film Series (CAL sponsored): *Ascent of Man: Majestic Clockwork.* 300 HSW. Noon-1 p.m. Free.*

CVRI Seminar: *Reflex Somatomotor Depression from Cardiopulmonary and Carotid Receptors.* K.H. Ginzel, Prof. Pharmacology, University of Arkansas Medical Center. 1364 S. 4-5:30 p.m.

Department of Pharmaceutical Chemistry Seminar: *Effects of Pressure on Enzyme Reactions.* Robert C. Neuman, Jr., Prof. Chem., UC-Riverside. 303 HSW. 4 p.m.

Bay Area Echo Conference: *Echocardiography of Transposition Post-Mustard's Procedure, Mitral-septal Separation, Photographic Reproduction of Light-sensitive M-mode Records, Two-dimensional Real-time Sector Scanning, and Scanning and miscellaneous case presentations.* Nelson B. Schiller, Dept. Cardiology, Norman H. Silverman, Director of Pediatric Non-Invasive Laboratory, and Richard Popp, Dept. Cardiology, Stanford. 214 S. 7:15 p.m. For further information call Nelson Schiller at 666-1931.

11 Tuesday

Department of Psychiatry Grand Rounds. Limited to faculty, staff and students of the campus. LPNI Aud. 11 a.m.

Research Seminars by Women Faculty and Research Scholars: *Measuring Androgyny - A Developmental Approach to Sex Role Differences.* Martha S. White. 118 S. Noon-1:30 p.m.

Public Tour of Campus. 1-2:30 p.m. Begins in Medical Sciences Lobby. Call 666-4394 for further information.*

Biochem/Biophysics Seminar: *Intercistronic Space.* Larry Soll, Dept. Molecular, Cellular & Developmental Biology, University of Colorado, Boulder, CO. 302 HSW. 4 p.m.

Transcendental Meditation: *Lecture by International Meditation Society.* 214 S. 7:30 p.m.*

12 Wednesday

Dermatology Conference. A 326. 8:10 a.m.

Medical Anthropology Seminar: *Traditional Public Health and Preventive Medicine, Especially in the Malay Peninsula.* Frederick Dunn, Prof. Dept. International Health. 310 C. 10-noon.

Medical Grand Rounds: *New Insights Into the Genetic Basis of Immunodeficiency.* Arthur J. Ammann. *Immunogenetic Aspects of Human Disease.* Hugh McDevitt. Cole Hall. 10:30-noon.

Film Series (CAL sponsored): *Ascent of Man: Drive for Power.* 300 HSW. Noon-1 p.m. Free.*

Reproductive Endocrinology Workshop: *Facts, Fallacies and Fantasies Concerning Implantation of the Blastocyst.* Allen Enders, Dept. Human Anatomy. UC-Davis. 664 S. Noon.

Neuroendocrinology Seminar: *Role of Extrahypothalamic Structures in the Control of ACTH Secretion.* Vaughn Critchlow, Chairman, Dept. Anatomy, U. of Oregon, School of Medicine. 758 S. 2 p.m.

Radiology Grand Rounds: *Diagnostic Ultrasound.* Roy A. Filly, Assistant Prof. Radiology. 303 HSW. 5-6:30 p.m.

13 Thursday

On Stage: Stephen Fiske - accompanying himself on acoustic guitar. Combined Lounge, MU. Noon.*

Neurobiology Seminar Series: *Preliminary Steps Towards a Molecular Understanding of Behavioral Sensitization.* E.R. Kandel, Prof. Division of Neurobiology, Columbia College of Physicians & Surgeons. Joint seminar with Substrates of Behavior Series. 758 S. 4 p.m.

Training Employees on the Job. Workshop designed to give supervisors who must train subordinates on the job, the skill and practice in breaking tasks down into component parts, designing lessons, improving the actual teaching process, developing effective ways to present task skills, and assuring employee understanding and competence. Presented by the Organizational Development Unit Staff, May 11 & 13, 8:30 a.m.-4:30 p.m. Fee $25. To enroll call 666-4032.

14 Friday

Children's Service Clinical Conference. LPNI Aud. 9:30-11 a.m.

Reproductive Biology Seminar: *Intrauterine Progesterone for Contraception: Development of a Delivery System and Clinical Results.* Bruce B. Pharriss, Principal Scientist, ALZA Research, Palo Alto. 1486 M. Noon.

Department of Mental Health and Community Nursing Seminar: *Findings from Research Project - Suicide.* Open to faculty of department. N717A. 1-2 p.m.

Film: *Love and Death.* Cole Hall. 6:30 p.m. & 8:30 p.m. Prices: children 75c; UCSF students, MU members, senior citizens $1.25; UCSF employees, other students $1.50; general $1.75.*

UCSF Golf Tournament, 18 holes Golf and Buffet, Willow Park Golf Club, Castro Valley. $100 & $50 prizes. UCSF staff, students, management and faculty interested in finding out more about this event contact Sam Hebert, 666-2002.

Auxiliary

The University of California Hospitals Auxiliary Annual Luncheon and Meeting will be on Wednesday, May 12, 1976 at 11:30 a.m. Millberry Union Gymnasium. Theme: Take Good Care of Yourself. Campus tours following meeting - Medical History Library and New Diagnostic Center, Body Scanner. Reservations necessary by May 7. Phone 666-4906.

& Upcoming!

Advances in Pediatrics: *Emphasis on newest development in diagnostic techniques, advances in management of selected diseases and pediatric emergencies.* Cole Hall. Wed. May 13-Sat. May 15.
Guest Faculty
Saul Krugman, Prof. Pediatrics, New York University School of Medicine.
Michael Rothenberg, Prof. Psychiatry and Pediatrics; Director, Child Psychiatry/Pediatric Liaison Services: Acting Head, Division of Child Psychiatry, Childrens Orthopedic Hospital and Medical Center, Seattle, Washington.
Course Coordinators
Moses Grossman, Prof. Pediatrics.
Melvin M. Grumbach, Prof. Pediatrics

Alcoholism & Drug Abuse: 1976. *Ninth annual conference sponsored by the Haight-Ashbury Free Medical Clinic.* May 22-23, Cole Hall.
Each year the program reflects the current state of the art and provides a thoughtful look at coming developments.
This year, the areas of integration between alcoholism and drug abuse will receive the greatest focus. Dialogue between the audience and the speakers will be encouraged.
Workshops are settings for small group interchange with leaders selected for their expertise. May 22-23. Cole Hall. For further information call Gail Jara, 777-2000.

Transactional Analysis on the Job. Relates TA concepts to each participant's work environment. It will assist manager-supervisors to better understand what they do to motivate and/or de-motivate their employees, teach more effective communications and solutions that lead to more satisfying interactions with subordinates, peers, supervisors, patients, clients, etc.
Presented by the Organizational Development Unit Staff. May 18 & 20, 8:30 a.m.-4:30 p.m. Fee $25. To enroll call 666-4032.

Sixth Annual Neurosurgery Postgraduate Course.
Stanford Ballroom, Stanford Court Hotel, 905 California Street, San Francisco, CA. Thurs. May 20-Sat. May 22.
Guest Faculty: Derek C. Harwood-Nash, Head Division of Pediatric Neuroradiology, The Hospital for Sick Children, Toronto; Brian Jennett, Prof. Neurosurgery, The Southern General Hospital, Glasgow; Frank Mayfield, Clinical Prof. Neurosurgery, University of Cincinnati; John Mullan, Prof. & Chairman, Dept. of Neurosurgery, University of Chicago; Joseph Ransohoff, Prof. & Chairman, Dept. Neurosurgery, New York University Medical Center; Albert L. Rhoton, Jr., Prof. Neurosurgery, The Children's Hospital Medical Center, Boston; M. Gazi Yasargil, Prof. & Chairman, Dept. Neurosurgery, Kantonshospital, Zurich.

SFGH

3 MONDAY
Neurology-Neurosurgery Grand Rounds. 34 Solarium. 8 a.m.

4 TUESDAY
Pediatric Grand Rounds. Clinical Pathological Conference. Case discussion: Eight month old infant with fever of unknown origin. Moses Grossman, Chief of Pediatrics, SFGH, and William Margaretten, Associate Professor, Pathology. Pathology Aud. 8:30 a.m.

Medical Grand Rounds: *Urinary Tract Infection.* Roger Lieberman, Assistant Clinical Prof. Medicine, UCSF. Pathology Aud. 11 a.m.

5 WEDNESDAY
Surgery Grand Rounds. Surgical Amphitheater. 8 a.m.

6 THURSDAY
Trauma Conference. Surgical Amphitheater. 8:30 a.m.

Combined UCSF Hematology Rounds. Pathology Aud. 1 p.m.

8 SATURDAY
UCSF Surgery Grand Rounds. Pathology Aud. 8 a.m.

10 MONDAY
Neurology-Neurosurgery Grand Rounds. 34 Solarium. 8 a.m.

11 TUESDAY
Pediatric Grand Rounds: *Meningomyelocoeles: Medical and Ethical Considerations.* Bruce Berg, Associate Prof. Neurology & Pediatrics, UCSF and Alfred Jonsen, Prof. Medical Ethics. Pathology Aud. 8:30 a.m.

Medical Grand Rounds: *Diabetic Coma.* Allen Adrieff. Pathology Aud. 11 a.m.

12 WEDNESDAY
Surgery Grand Rounds. Surgical Amphitheater. 8 a.m.

13 THURSDAY
Trauma Conference. Surgical Amphitheater. 8:30 a.m.

Family Health Center's San Francisco Family Forum: *Where Are They Coming From.* An analysis of 1025 intakes in District 3, Mental Health System, 1974-75. Jack Mohrbacher, Southeast Mental Health Center. Pathology Aud. 11 a.m.-12:30 p.m.

VA

4 TUESDAY
Medical Grand Rounds. Aud. 10:30 a.m.

5 WEDNESDAY
UCSF Medical Grand Rounds via closed-circuit TV. A 125. 10:30 a.m.

7 FRIDAY
Cardiothoracic Grand Rounds. Room A 125. 8 a.m.

11 TUESDAY
Medical Grand Rounds. Aud. 10:30 a.m.

12 WEDNESDAY
UCSF Medical Grand Rounds via closed-circuit TV. A 125. 10:30 a.m.

14 FRIDAY
Cardiothoracic Grand Rounds. Room A 125. 8 a.m.

Deadline for copy for the next issue of Today/Tomorrow which covers events from May 15 through May 28 will be 11 a.m., Tuesday May 4. Send your copy to News Services, 1475 - 4th Avenue, Attn. Calendar.

News Briefs

A portion of the proceeds from 5,000 tickets to the May 16 soccer game between the San Jose Earthquakes and the Vancouver Whitecaps have been earmarked for the Committee for the Relief of Guatemala, report Drs. Jim Adams and David Curtis, of the UCSF Department of Medicine. Drs. Adams and Curtis were responsible for setting up the volunteer field hospital for earthquake victims in the devastated community of Comalapa. Soccer fans are asked to send $4.25 for each reserved seat to the Committee for Relief of Guatemala, 2600 Ingalls St., San Francisco 94124. Blocks of tickets may be reserved by calling 822-9270. After the game, the Committee will hold a fund raising banquet at the Hyatt Regency Hotel, San Francisco.

More than $300,000 worth of contemporary art and sculpture by leading Bay Area artists has been commissioned by the San Francisco Art Commission for the new San Francisco General Hospital. According to Elio Benvenuto of the Art Commission the hospital will have the largest permanent art collection ever assembled in a San Francisco City and County facility, with the exception of the future International Airport. Thirty artists have been commissioned to produce a total of 600 prints for the new hospital. Leading sculptors have created massive sculpture for the reflecting pool in the seventh floor deck and other landscaped decks and terraces. Several of the paintings were selected in a special competition. The purchases were made possible through permanent funds authorized during the administration of the late Mayor John F. Shelley, to provide art works for all new public buildings constructed on City property.

Honors & Appointments

MILLS, JOHN, Assistant Prof. Medicine & Microbiology, SFGH: Lectured at University of Louisville Medical Center, Louisville, Ky., April 12, on "The Ethics of Experimentation on Prisoner Volunteers."

FINE, RICHARD, Chief, SFGH Medical Clinic and Assistant Clinical Prof. Medicine: Visited Soledad Prison, April 8-10 to investigate quality of medical care.

SCHMID, RUDI, Prof. Medicine: Distinguished lecturer American Physicians meeting, May 4, Atlantic City, New Jersey.

LEWIN, ELLEN, Assistant Research Anthropologist/Lecturer, Dept. Social & Behavioral Science, School of Nursing: Presenting paper at the Berkeley Women's Center Conference on May 20 titled "Feminism and Professionalism: Nursing Work and the Transformation of Consciousness."

As required by Title IX of the Education Amendments of 1972 (42 CRF 86), the University of California does not discriminate on the basis of sex in admission to or employment in the educational programs and activities which it operates. Inquiries concerning Title IX may be directed to the Affirmative Action Coordinator, Room 120U, Extension 4752, or the Director of the Office of Civil Rights, Department of Health, Education and Welfare.
